**Subject:** [EXTERNAL] ROW/Surface Disturbance Work Group

Good Morning all,

Now that we have worked through the Temporary Water line policy, we would like to move the ROW work group to encompass both on and off lease right of ways/surface use as this would include Surface as well as Realty and maybe even biology, arch and wildlife. We have previously identified some issues with future planning and shared surface and we would like to move this work group into focusing on those challenges. As we begin to ramp up operations in SENM, this is going to become more of a challenge for all of us.

As you know, we have this meeting scheduled for Wednesday morning from 8:30-9:30am at Oxy's office in Carlsbad. We would like to start identifying the challenges faced with surface use and begin to formulate a plan going forward of how to minimize the conflicts as well as speed up the approval process. We would like to move this group into focusing on infrastructure in SENM and not just ROW and I wanted to make sure that you all are able to be at this meeting.

THANK YOU,

LESLIE GARVIS
